SANDWICH CUTTER AC60

CUT SANDWICHES IN HALVES CLEANLY AND QUICKLY WITH A CUSTOM-FIT CUTTER

The AC60 Series Sandwich Cutters cut virtually any sandwich in half accurately and cleanly using mechanical or ultrasonic blades. It is tailored to your operation through a number of available configurations and models. The Mechanical model's vertical reciprocating blade cuts cleanly and the electric aligner ensures cuts are precise. With the Ultrasonic model, the razor sharp, titanium oscillating blade cuts softer products cleanly and precisely, with the help of high frequency ultrasonic vibrations that create a friction-free surface. All models' user-friendly operation and sanitation allow for fast set-up, usage and thorough cleaning.

- Cut up to 60 sandwiches per minute, per lane
- Mechanical or ultrasonic blades cut sandwiches in half straight or at a 45 degree angle. Quarter cuts available in the Tandem model
- Cuts through virtually any sandwich product – bread, meat, cheese, wet salads and produce
- Recipe-driven touch screen control system adjusts settings automatically – reducing changeover time, increasing efficiency and throughput
- Sanitary design with easily removable parts allows for quick, thorough cleaning and maintenance
